# SEPTEMBER 2015

Website: [www.heritagehill.us](http://www.heritagehill.us)

**PRESIDENTIAL STATE OF THE HILL ADDRESS:**

Greetings from Heritage Hill. The 2015 Heritage Hill Threshing Show is history. Every year leading up to the annual Threshing Show there is always varying levels of anticipation, frustration, anxiety and stress for all involved, for we are all concerned about the Threshing Show being a complete success. I believe it is fair to say that it becomes increasingly difficult to remember everything that needs to be completed in advance. After the show is over, it is always fun to mull over the entire Threshing Show weekend and discuss its strengths and weaknesses, making note of what to tweak for future events. The 2015 Threshing Show was no different. This year there was a threat of rain on Saturday, which had us all monitoring the weather forecasts for continued updates. Much of the weekend brought overcast skies which is always really welcome to keep the ultra-violet radiation to a minimum. Late Saturday afternoon the wind changed direction ushering in a cold front, which was cause for some real cold temperatures during the Sneaky Pete Garden Tractor Pull event. Few know this, but I got so cold watching the garden tractor pull, that I finally walked to the Threshers' Kitchen and sat by myself for a while to warm these weary cold old bones. The Threshing Show was a success in many ways. Heritage Hill was fortunate again in 2015 to have no reported injuries – that is of constant concern. Although it is impossible to measure exactly, the attendance had decreased, but not down as far as anticipated. If the 2015 attendance had decreased, the food sales in the Threshers' Kitchen were quite constant with 2014. The food sales and attendance at the tractor pull and garden tractor pull was good. Over the past number of years parking attendants have been increasingly difficult to locate. This year flags strips were borrowed and used to mark rows for automobiles to park. This proved to be a good change – no parking crew was hired and our spectators were able to park as needed. The gun raffle was another huge success as all tickets were sold out. Congratulations to the winners whose names can be found in the newsletter insert. In past years a few sponsorships were obtained from local businesses to help support the annual tractor pull. Prior to the 2015 tractor pull, a special effort was put forth to solicit multiple sponsorships. Thanks are extended to the 22 area businesses that collectively donated \$4,950 toward the tractor pull costs. The support was overwhelming and greatly appreciated. These are a few of many thoughts to share when reflecting on the 2015 show. There are many more positive aspects too numerous to mention. I especially wish to extend appreciation to all the Heritage Hill members, and non-members alike, who most graciously volunteer of their time and talent to make the annual Heritage Hill Threshing Show a success. It is nice to know we have many people who so willingly resume their prior responsibilities from year-to-year, as well as those who volunteers to fill in vacancies as needed. As the old Proverb reminds us, many hands make light work.

I hope everybody had a relaxing Labor Day weekend. Labor Day is kind of like the unofficial end to summer. Dorraine and I had the opportunity to spend the weekend at the lake with family and friends. Although the annual Heritage Hill Threshing Show is an exciting event, it is always a relief to have those extra duties put to rest for another year. We can then look forward to attending neighboring threshing shows and other area events. Gerald Kleene has been the Heritage Hill representative who attends the Minnesota Association of Antique Power Shows. Through the MAAPS organization Gerald and Karen Kleene have become acquainted with many of the good folks who are members and leaders of various threshing shows around the state. This connection has led the Kleenes to camp and attend the White Pine Logging and Threshing Show for a number of years.

The show is held Saturday, Sunday and Monday each Labor Day weekend. The show grounds are remotely located, nestled in woods, off a gravel road, just east of McGrath, Minnesota. This show is very unique as it is privately owned and operated by the John Langenbach family. It is not a non-profit organizational venue like so many other shows. Like all other shows, it takes a multitude of volunteers to operate this logging and threshing show and they seem to get plenty of help. Gerald Kleene volunteers to help run the equipment to make wooden whiskey barrels, which seems to be an exhibit unique to the White Pine show. Being the only like logging/threshing show for miles around, White Pine seems to have a sizable exhibitor and spectator following.

It is nice to have the Threshers' Kitchen reconditioning project completed. The floor sealer was the only thing that did not get applied prior to the Threshing Show. The floor will be sealed shortly. Once again thanks are extended to the Chippewa County Commissioners for the use of the county land. Corn was raised on the land this year. Much depends on the fall conditions, but the growing season was good, so an earlier than normal harvest may be expected. The first 1,200 bushels of corn will be harvested on the ear and elevated into the corn crib. The corn harvest is another event when all Heritage Hill members can gather for a fun and excitement. I hope to see everybody at the September 15 Heritage Hill meeting.

*Thank you, Wesley Thompson, President*

#### Needed.

Nominating Committee. In October there will be an election, I believe there are seven positions to be filled. Pres, Vice Pres, treasurer, Secretary, and board members. We need people to fill these positions. Are we tired that the same people are running the club, well step up, throw your hat in the ring and do your part. But first we need a nominating committee. Please pick up the phone and call one of the board members if you are interested

#### Feature Tractor

The 2016 feature tractor is the Massy family, the Massy Harris and Massy Ferguson. Do you have a candidate sitting in the shed? Yes it is ideal to only have one feature tractor per person but no longer possible, So even if you have had a feature before and have a classy massy or know of someone who does, member or non member, lets hear from you

#### Volunteers

At the time of this writing your editor is attending the White Pine Logging Show. This show is run entirely with volunteers. Likewise our kitchen and sawmill and tractor pull have outside help. We would like to take this opportunity to say thanks to them with their picture in the newsletter'

These are not the only volunteers that help, but the only ones I have pictures of. Thanks to all. The show would be a struggle without you.
